

Environmental Policy

Here at Your Building Expert Ltd, Not only do we recognise our legal obligation in reducing our impact on the environment but a morale perogative to aide in ecology friendly business practices and methods

With this in Mind, Your Building Expert Ltd has looked to introduce a 'Proactive over Reactive' policy at all levels of functionality within the business to ensure our ecology footprint is reduced in line with our progessive policy on the environment

Areas of Focus:

- Compliance with all environmental legal requirements, regulations and guidance.
- Integration of environmental factors into business decisions.
- Planning work systems and practices so as to give due consideration as to their potential environmental impact.
- So far as it is possible to prevent the illegal deposit, disposal or treatment of controlled waste by any person where that waste has been, or will be under the control of the company.
- Where possible seek to influence the design and specification of construction projects so as to ensure that environmental impact is minimised as far as it reasonably practical.
- Ensuring considered use of resources of all kinds, including the promotion of recycled and recyclable materials wherever possible.
- Establishing company procedures to ensure that waste is managed in line with legislation and that all parties involved in the waste production, transportation, transfer and disposal process comply with their Duty of Care regarding waste control.
- Periodically review environmental legislation to which the organisation's activities are subject to ensure continued compliance with both the letter and spirit of legislation.

- Provide information to individuals regarding the monitoring of the Company Environmental Procedures.
- Provide copies of this Environmental Policy Statement to all employees
- Ensure all employees have an understanding and are trained in their responsibilities in relation to the environmental policy and procedures.

One amongst many key principles for our commercial success is our capacity to contribute to the growing requirement in creating a better ecology in managing and reducing our enviromental impact
